Lead Financial Analyst

Full-Time – Columbus, OH

Job Post: July 22, 2019

Position Summary

IkoVe Venture Partners is an ever-growing team of entrepreneurs, designers, engineers, product experts, and investors. We build and launch startups with disruptive technologies into the marketplace. We are seeking to add a finance leader with a background in startup finance to core team.

Primary Responsibilities

- Conduct analysis of market and technology trends
- Research, identify, and source new deal flow
- Perform due diligence on new investments including market research, competitive analysis, and financial modeling
- Prepare presentations and investment memos
- Support/prepare documentation for financial reporting and external audits
- Consult/support portfolio companies and the principle and founders of IkoVe
- Assist the investment team as needed
- Perform financial projections/modeling for fund projections, portfolio valuation
- Utilize your expertise of cap tables and equity financing for early-stage venture.

Qualifications and Skill Requirements

- Bachelor's degree in finance
- 5+ years of financial analysis experience in one or more of these areas: venture capital, private equity, or early stage companies
- 5+ years of conducting in-depth financial research, monitoring portfolios, reports development and monitoring business growth
- Strong financial modeling skills
- Prior experience providing input for strategic development and acquisition opportunities and recommending strategies for highest return on investment (ROI)
- Strong interpersonal skills and ability to work well in a small team
- Strong critical thinking and analytical skills with the ability to communicate thoughts clearly to the group
- Funds analysis experience highly desired
